

ULTIMUS MANAGERS TRUST

Blue Current Global Dividend Fund

**Supplement to the Prospectus and Statement of Additional Information,
each dated December 29, 2017**

Investment Adviser Change in Control

On August 1, 2018, all of the assets of Edge Advisors, LLC (“**Edge Advisors**”) the prior investment adviser to the Blue Current Global Dividend Fund (the “**Fund**”), were acquired by Edge Capital Group, LLC (“**Edge Capital**”), a wholly-owned subsidiary of Focus Operating, LLC, which in turn is wholly-owned by Focus Financial Partners, LLC (“**Focus**”). Focus is controlled by its managing member, Focus Financial Partners Inc., a publicly traded company listed on the NASDAQ Global Select exchange under the symbol FOCS (the “**Acquisition**”). Edge Capital began operations on August 1, 2018 with the closing of the Acquisition, and is registered with the Securities and Exchange Commission. Edge Capital is the successor-in-interest to Edge Advisors and serves as the investment adviser to the Fund. Focus invests in a variety of investment advisory firms, but does not engage in the direct management or operation of those advisory affiliates. Edge Capital does not expect any interruption of the Fund’s daily business as a result of the closing of the Acquisition. The portfolio management team under Edge Advisors, and now under Edge Capital, has remained intact and in place and is expected to continue to manage the Fund using the same investment objective and strategies that have been employed for years by Edge Advisors.

Interim Investment Advisory Agreement and Interim Expense Limitation Agreement

The Fund’s investment advisory agreement with Edge Advisors in effect prior to August 1, 2018 (the “**Prior Advisory Agreement**”) provided for its automatic termination in the event of its assignment. As a result, the completion of the Acquisition resulted in the termination of the Prior Advisory Agreement. At a meeting held on July 23-24, 2018 (the “**Meeting**”), the Trust’s Board of Trustees (the “**Board**”) approved an interim investment advisory agreement with Edge Capital for the Fund (the “**Interim Advisory Agreement**”).

Under the Interim Advisory Agreement, which became effective on August 1, 2018, Edge Capital provides the same advisory services to the Fund on the same terms provided under the Prior Advisory Agreement. There are no changes to the advisory fees (other than with respect to the provision which provides that the compensation earned under the Interim Advisory Agreement will be held in an interest-bearing escrow account as required by Rule 15a-4 under the Investment Company Act of 1940, as amended), investment objectives, or principal investment strategies of the Fund or composition of the Fund’s portfolio management team.

At the Meeting, the Board also approved a new investment advisory agreement (the “**Proposed New Advisory Agreement**”) between the Fund and Edge Capital, which will be submitted to the shareholders of the Fund for their approval at a shareholders meeting called for that purpose. A proxy statement, along with notice of the shareholder meeting and a proxy ballot with more information regarding the Acquisition and the Proposed New Advisory Agreement, will be mailed to shareholders of the Fund in or around September 2018. The shareholder meeting is anticipated to take place in October 2018. The Interim

Advisory Agreement will terminate upon the earlier of (i) December 29, 2018 or (ii) the date of approval of the Proposed New Advisory Agreement by the shareholders of the Fund.

In addition, at the Meeting, the Board also approved an interim expense limitation agreement (the “**Interim Expense Limitation Agreement**”), and a new expense limitation agreement (the “**New Expense Limitation Agreement**”) between the Trust, on behalf of the Fund, and Edge Capital, because the prior expense limitation agreement for the Fund (the “**Prior Expense Limitation Agreement**”) terminated with the termination of the Prior Advisory Agreement, and the Interim Expense Limitation Agreement will terminate with the termination of the Interim Advisory Agreement. The terms of the Interim Expense Limitation Agreement and the New Expense Limitation Agreement are substantially similar to those of the Prior Expense Limitation Agreement. The Interim Expense Limitation Agreement became effective on August 1, 2018, and the New Expense Limitation Agreement will be entered into upon shareholder approval of the New Advisory Agreement.

In connection with the Acquisition, the changes described below to the Fund’s Prospectus and Statement of Additional Information (the “**SAI**”) are effective immediately.

Changes to the Prospectus and SAI

Replace all references to “Edge Advisors, LLC” in the Prospectus and SAI with “Edge Capital Group, LLC.”

The following updates the first paragraph, in its entirety, under the section “Fund Management – The Investment Adviser”, on page 17 of the Prospectus:

Edge Capital Group, LLC (the “Adviser”), with a principal address of 1380 West Paces Ferry Rd., Suite 1000, Atlanta, GA 30327, serves as the investment adviser to the Fund. The Adviser provides the Fund with a continuous program of investing the Fund’s assets and determining the composition of the Fund’s portfolio. The Adviser was founded in 2018, as the successor-in-interest to the Fund’s previous investment adviser, Edge Advisors, LLC, and also provides investment advisory services to high net worth individuals and institutions, such as corporations, defined benefit plans (both private and governmental), profit sharing plans, endowments and charitable foundations, and other investment pools.

The following updates the first two paragraphs, in their entirety, under the section “Fund Management – Portfolio Manager”, on page 18 of the Prospectus:

Henry M. Jones is a Co-Portfolio Manager of the Fund and has managed the portfolio since its inception in September 2014. Mr. Jones is Managing Partner at the Adviser. Previously, he was the Managing Partner of Edge Advisors, LLC, the previous adviser to the Fund, since 2012 and co-founded Edge Advisors, LLC in 2006. Prior to co-founding Edge Advisor’s, LLC, Mr. Jones was a Director at Credit Suisse. He also served as portfolio manager for an equity fund and was an analyst for the Excelsior Value & Restructuring Fund. Mr. Jones earned a Bachelor of Arts in History and Economics with distinction (Omicron Delta Epsilon) from Hampden-Sydney College and a Master of Business Administration from the University of North Carolina Kenan-Flagler School of Business.

Dennis Sabo, CFA, is a Co-Portfolio Manager of the Fund and has managed the portfolio since its inception in September 2014. Mr. Sabo is a Partner at the Adviser. Previously, he was a Partner of Edge Advisors, LLC, since 2017 and has co-managed equity strategies since 2010. Mr. Sabo is a member of the Adviser's Advisory Committee and Strategy Team, where he is responsible for equity investments and asset allocation recommendations. Prior to joining Edge Advisors, LLC, Mr. Sabo was an equity analyst at Jodocus Capital, a long/short hedge fund where he was a sector generalist. Prior to Jodocus, Mr. Sabo was an equity analyst at Credit Suisse where he was a member of the Global Media team. Mr. Sabo was also an associate at Suntrust Robinson Humphrey and covered the consumer technology sector. Prior to his career in investment management, Mr. Sabo worked in telecommunications engineering for six years. Mr. Sabo earned a Bachelor of Science Electrical Engineering from the University of Miami and a Master of Business Administration from the University of Georgia, where he concentrated on finance and investments.

The following updates the first two paragraphs, in their entirety, under section "Investment Adviser", on page 21 of the SAI:

Edge Capital Group, LLC, located at 1380 West Paces Ferry Road, Suite 1000, Atlanta, Georgia 30327, serves as the investment adviser to the Fund pursuant to an Interim Investment Advisory Agreement dated August 1, 2018 (the "Interim Investment Advisory Agreement"). The Adviser was organized in 2018 and also provides investment advisory services to high net worth individuals and institutions, such as corporations, defined benefit plans (both private and governmental), profit sharing plans, endowments, and charitable foundations. The Adviser is wholly-owned by Focus Operating, LLC, which in turn is wholly-owned by Focus Financial Partners, LLC. Focus Financial Partners, LLC is controlled by its managing member, Focus Financial Partners Inc., a publicly traded company listed on the NASDAQ Global Select exchange under the symbol FOCS.

The Interim Advisory Agreement will terminate upon the earlier of (i) December 29, 2018 or (ii) the date of approval of a proposed new Advisory Agreement by the shareholders of the Fund. The Interim Investment Advisory Agreement is terminable without penalty on 10 days' notice by the Trustees or by vote of a majority of the outstanding voting securities of the Fund. The Adviser may, at any time and without any penalty, terminate the Interim Investment Advisory Agreement upon 60 days' written notice to the Trust and the Fund.

There are no changes to the Fund's investment goal, investment strategies or principal risks as a result of the Acquisition described herein. Henry Jones and Dennis Sabo continue to serve as the Fund's portfolio managers and all investment advisory services continue to be performed from the Adviser's Atlanta, Georgia location.

RISK/RETURN SUMMARY

INVESTMENT OBJECTIVE

The Blue Current Global Dividend Fund (the “Fund”) seeks current income and capital appreciation.

FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees *(fees paid directly from your investment)*

	Investor Class (1)	Institutional Class
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None	None
Maximum Deferred Sales Charge (Load)	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None	None
Redemption Fee (as a percentage of the amount redeemed within 7 days after purchase)	2%	2%

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	Investor Class (1)	Institutional Class
Management Fees	0.99%	0.99%
Distribution and/or Service (12b-1) Fees	0.25%	None
Other Expenses	0.46%	0.46%
Total Annual Fund Operating Expenses	1.70%	1.45%
Less Management Fee Reductions and/or Expense Reimbursements ⁽²⁾	<u>(0.46%)</u>	<u>(0.46%)</u>
Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements	<u>1.24%</u>	<u>0.99%</u>

⁽¹⁾ As of the date of this Prospectus, the Investor Class shares are not being offered.

⁽²⁾ Edge Advisors, LLC (the “Adviser”) has contractually agreed, until January 1, 2019, to reduce Management Fees and reimburse Other Expenses to the extent necessary to limit Total Annual Fund Operating Expenses (exclusive of brokerage costs, taxes, interest, borrowing costs such as interest and dividend expenses on securities sold short, Acquired Fund fees and expenses, extraordinary expenses such as litigation and merger or reorganization costs and other expenses not incurred in the ordinary course of the Fund’s business, and amounts, if any, payable pursuant to a plan adopted in accordance with Rule 12b-1 under the Investment Company Act of 1940, as amended (the “1940 Act”)) to an amount not exceeding 1.24% of the average daily net assets of the Investor Class shares and 0.99% of the average daily net assets of the Institutional Class shares, respectively. Management Fee reductions and expense reimbursements by the Adviser are subject

to repayment by the Fund for a period of 3 years after such fees and expenses were incurred, provided that the repayments do not cause Total Annual Fund Operating Expenses (exclusive of such reductions and reimbursements) to exceed (i) the expense limitation then in effect, if any, and (ii) the expense limitation in effect at the time the expenses to be repaid were incurred. Prior to January 1, 2019, this agreement may not be modified or terminated without the approval of the Fund's Board of Trustees (the "Board"). This agreement will terminate automatically if the Fund's investment advisory agreement (the "Advisory Agreement") with the Adviser is terminated.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year, the operating expenses of the Fund remain the same and the contractual agreement to limit expenses remains in effect only until January 1, 2019. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

Class	1 Year	3 Years	5 Years	10 Years
Investor	\$126	\$442	\$831	\$1,922
Institutional	\$101	\$365	\$700	\$1,647

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund's performance. During the most recent fiscal year the Fund's portfolio turnover rate was 61% of the average value of its portfolio.

PRINCIPAL INVESTMENT STRATEGIES

The Fund seeks to achieve its investment objective by investing in dividend-paying equity securities of companies whose stock are selling at discounts to the Adviser's estimate of their intrinsic value. The Fund invests primarily in domestic and foreign equity securities such as common and preferred stock that are currently paying dividends. In order to hedge against currency risk to its foreign equity securities, the Fund will invest in forward foreign currency exchange contracts ("forwards"). The Fund may also invest in publicly traded master limited partnerships ("MLPs") and exchange-traded funds ("ETFs") that tend to pay dividends. Under normal circumstances, the Fund will invest at least 80% of its net assets in equity securities that either have paid a dividend in the 12 months prior to purchase, or are expected by the Adviser to pay a dividend within 12 months following the Fund's purchase of the security. There are no restrictions as to the market capitalization of companies in which the Fund invests. Under normal market conditions, the Fund will generally hold securities of 25 to 50 companies.

An MLP is a limited partnership, the securities of which are traded on a public exchange or in the over-the-counter markets, that is eligible for special tax treatment under the Internal Revenue Code of 1986, as amended (the "Code"). To qualify as an MLP, the partnership

must receive at least 90% of its income from certain qualifying sources, including real estate, commodities, or natural resources. The Adviser believes that MLPs are an efficient way to gain portfolio exposure to such asset classes.

In selecting investments for the Fund, the Adviser seeks securities that the Adviser believes are undervalued, high-quality dividend paying equities issued by companies with a commitment to dividend growth, and that pay above-market dividend yields. The Adviser considers such factors as dividend sustainability, balance sheet quality, growth characteristics, and valuation when selecting investments for the Fund. Throughout this process the Adviser applies fundamental, “bottom-up” analysis when selecting investments. This analysis focuses on the specific attributes of each company rather than the industry in which the company operates or the economy in general.

The Fund seeks to have a diversified portfolio by issuer, industry, and country. The Fund will invest, under normal market conditions, in at least three different countries, one of which will be the United States. The Fund will also invest at least 40% of its assets in foreign securities. The Fund's foreign securities will primarily be in companies in developed countries.

The Fund's investment in foreign securities may include investing in securities traded on foreign exchanges, investing in American Depositary Receipts (“ADRs”) listed on U.S. stock exchanges, or investing in ETFs that invest in foreign securities. The Fund may seek to hedge against currency fluctuations and deviations involving its foreign equity securities, including by investing in forward foreign currency exchange contracts.

A security may be sold when the security reaches its intrinsic value as determined by the Adviser, the Adviser has identified a more attractive security, or the security no longer meets the Adviser's dividend-paying criteria.

PRINCIPAL RISKS

As with any mutual fund investment, there is a risk that you could lose money by investing in the Fund. The success of the Fund's investment strategies depend largely upon the Adviser's skill in selecting securities for purchase and sale by the Fund and there is no assurance that the Fund will achieve its investment objective. Because of the types of securities in which the Fund invests and the investment techniques the Adviser uses, the Fund is designed for investors who are investing for the long term. The Fund may not be appropriate for use as a complete investment program. The principal risks of an investment in the Fund are generally described below.

Stock Market Risk – The return on and value of an investment in the Fund will fluctuate in response to stock market movements. Stocks are subject to market risks, such as a rapid increase or decrease in a stock's value or liquidity, fluctuations in price due to earnings, economic conditions and other factors beyond the control of the Adviser. A company's share price may decline if a company does not perform as expected, if it is not well managed, if there is a decreased demand for its products or services, or during periods of economic uncertainty or stock market turbulence, among other conditions. In a declining

stock market, stock prices for all companies (including those in the Fund's portfolio) may decline, regardless of their long-term prospects. During periods of market volatility, stock prices can change drastically, and you could lose money over short or long term periods.

Management Style Risk – The portfolio manager's method of security selection may not be successful and the Fund may underperform relative to other mutual funds that employ similar investment strategies. In addition, the Adviser may select investments that fail to perform as anticipated. The ability of the Fund to meet its investment objective is directly related to the success of the Adviser's investment process and there is no guarantee that the Adviser's judgments about the attractiveness, value, dividend-paying and potential appreciation of a particular investment for the Fund will be correct or produce the desired results.

Investment Style Risk – Returns from dividend-paying stocks may underperform the returns from the overall stock market. Since the Fund invests primarily in dividend-paying stocks, the Fund's performance may at times be better or worse than the performance of the mutual funds that focus on other types of strategies.

Large-Capitalization Company Risk – Large-capitalization companies are generally more mature and may be unable to respond as quickly as smaller companies to new competitive challenges, such as changes in technology and consumer tastes, and also may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion.

Small- and Mid-Capitalization Company Risk – Investments in small-capitalization and mid-capitalization companies often involve higher risks than large-capitalization companies because these companies may lack the management experience, financial resources, product diversification and competitive strengths of larger companies. Therefore, the securities of small- and mid- capitalization companies may be more susceptible to market downturns and other events, and their prices may be subject to greater price fluctuation. In addition, the securities of small- and mid-capitalization companies may trade less frequently and carry less volume than that of larger companies. Because small- and mid-capitalization companies normally have fewer shares outstanding than larger companies, it may be difficult to buy or sell significant amounts of such shares without an unfavorable impact on prevailing prices. Small-capitalization and mid-capitalization companies are typically subject to greater changes in earnings and business prospects than larger, more established companies and also may not be widely followed by investors, which can lower the demand for their stock.

Foreign Securities Risk – Investments in foreign securities involve risks that may be different from those of U.S. securities. Foreign securities may not be subject to uniform audit, financial reporting, or disclosure standards, practices, or requirements comparable to those found in the United States. Foreign securities are also subject to the risk of adverse changes in investment or exchange control regulations or currency exchange rates, expropriation or confiscatory taxation, limitations on the removal of funds or other assets, political or social instability and nationalization of companies or industries. In addition, the dividend and interest payable on certain of the Fund's foreign securities may be subject to foreign withholding taxes. Foreign securities also involve currency risk, which is the risk that the value of a foreign security will decrease due to changes in the

relative value of the U.S. dollar and the security's underlying foreign currency. ADRs and ETFs investing in foreign securities are subject to risks similar to those associated with direct investments in foreign securities.

Currency Risk. Changes in foreign currency exchange rates will affect the value of the Fund's foreign securities. Generally, when the value of the U.S. dollar raises relative to a foreign currency, securities valued in that foreign currency lose value in terms of U.S. dollars since that foreign currency is worth fewer U.S. dollars. Currency exchange rates can fluctuate for a number reasons, including the economic stability of a country, changes in interest rates, devaluation of a currency by a country's government or central banking authority, and overall demand for a currency or lack thereof. Exchange rates can change significantly over short periods.

The Fund may seeks to hedge against currency exposure, such as investing in forward foreign currency exchange contracts, to attempt to reduce the effect of currency fluctuations and deviations. However, the Fund's use of currency hedging may not be successful and the use of such strategy may lower the Fund's potential returns.

Forward Currency Exchange Contract Risk. Forward Currency Exchange Contracts ("Forex Contracts") are individually negotiated and privately traded agreements to buy or sell a specific currency at a future date and at a price set at the time of the transaction. Although Forex Contracts may reduce the risk of loss from a change in value of a currency, they also limit any potential gains, are subject to the creditworthiness of the counterparty, do not protect against fluctuations in the value of the underlying security, and are subject to additional risk of loss or depreciation due to: unanticipated adverse changes in interest rates, indices, and currency exchange rates; the inability to close out a position; default by the counterparty; imperfect correlation between a forward and the underlying currency; and tax constraints on closing out positions. The loss on Forex Contracts may substantially exceed the amount invested in these instruments.

Exchange-Traded Fund ("ETF") Risk – Investments in ETFs are subject to the risk that the market price of an ETF's shares may differ from its net asset value ("NAV"). This difference in price may be due to the fact that the supply and demand in the market for ETF shares at any point in time is not always identical to the supply and demand in the market for the underlying basket of securities. Accordingly, there may be times when an ETF trades at a premium (creating the risk that the Fund pays more than NAV for an ETF when making a purchase) or discount (creating the risks that the Fund's NAV is reduced for undervalued ETFs it holds, and that the Fund receives less than NAV when selling an ETF). Investments in index-based ETFs are also subject to the risk that the ETF may not be able to replicate exactly the performance of the indices it tracks because the total return generated by the securities will be reduced by transaction costs incurred in adjusting the actual balance of the securities. In addition, the index-based ETFs in which the Fund invests may incur expenses not incurred by their applicable indices. Certain securities comprising the indices tracked by index-based ETFs may, from time to time, temporarily be unavailable, which may further impede the ETFs' ability to track their applicable indices or match their performance. To the extent that the Fund invests in ETFs, the Fund would bear its pro-rata portion of such ETF's advisory fees and operational expenses.

MLP Risk – Investments in MLPs are generally subject to many of the risks that apply to investments in partnerships, such as limited control and limited voting rights and fewer corporate protections than afforded investors in a corporation. MLPs that concentrate in a particular industry or region are subject to risks associated with such industry or region. Investing in MLPs also involves certain risks related to investing in the underlying assets of the MLPs and risks associated with pooled investment vehicles, such as adverse economic conditions, an increase in the market price of the underlying commodity, higher taxes or other regulatory actions that increase costs, a shift in consumer demand or conflicts of interest with the general partner. The benefit derived from the Fund's investment in MLPs is largely dependent on the MLPs being treated as partnerships for federal income tax purposes, so any change to this status would adversely affect its value. The Fund's investment in MLPs may result in the layering of expenses such that shareholders will indirectly bear a proportionate share of the MLP's operating expenses in addition to paying Fund expenses.

MLP Tax Risk – MLPs generally do not pay U.S. federal income tax at the partnership level. Rather, each partner in an MLP is allocated a share of the MLP's income, gains, losses, deductions and expenses. A change in current tax law, or a change in the underlying business mix of a given MLP, could result in an MLP being treated as a corporation for U.S. federal income tax purposes, which would result in such MLP being required to pay U.S. federal income tax on its taxable income, and could result in lower income to the Fund and a reduction in the value of the Fund's investment in the MLP. Additionally, open-end mutual funds seeking to be taxed as regulated investment companies, such as the Fund, are limited in their ability to invest in MLPs by current federal tax rules. If a mutual fund invests more than 25% of the value of its total assets in MLP securities, it will be subject to federal corporate income tax, currently at a maximum rate of 35%. For more information about the Fund's tax status, please see "Dividends, Distributions and Taxes" in this Prospectus.

PERFORMANCE SUMMARY

The bar chart and table shown below provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing how the Fund's average annual total returns for one year and since inception compare with those of a broad-based securities market index. The bar chart and table show the performance of the Fund's Institutional Class which is the only class currently being offered. The Investor Class, if available, would have substantially similar annual returns and would differ only to the extent the Investor Class has different expenses. How the Fund has performed in the past (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information, current through the most recent month end, is available by calling 1-800-514-3583 or by visiting www.bluecurrentfunds.com.

Calendar Year Returns

The Fund's year-to-date return through September 30, 2017 is 15.08%.

Quarterly Returns During This Time Period

Highest: 4.33% (quarter ended December 31, 2015)

Lowest: (7.39%) (quarter ended September 30, 2015)

Average Annual Total Returns for Periods Ended December 31, 2016	One Year	Since Inception (September 15, 2014)
Return Before Taxes	8.96%	2.14%
Return After Taxes on Distributions	8.43%	1.70%
Return After Taxes on Distributions and Sale of Fund Shares	5.48%	1.60%
MSCI World High Dividend Yield Index (reflects no deduction for fees, expenses or taxes)	9.29%	0.63%
MSCI World Index (reflects no deduction for fees, expenses or taxes)	7.51%	2.16%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their shares through tax-deferred arrangements, such as a 401(k) plan or an individual retirement account (IRA).

MANAGEMENT OF THE FUND

The Investment Adviser

Edge Advisors, LLC is the Fund's investment adviser.

Portfolio Managers	Investment Experience with the Fund	Primary Title with Adviser
Henry M. Jones	Management of the Fund since its inception in September 2014	Managing Partner
Dennis Sabo	Management of the Fund since its inception in September 2014	Partner

PURCHASE AND SALE OF FUND SHARES

Minimum Initial Investment

For Investor Class shares, the minimum initial investment amount is \$2,500 for all regular accounts. As of the date of this Prospectus, the Investor Class shares are not being offered.

For Institutional Class shares, the minimum initial investment amount is \$100,000 for all regular accounts.

Minimum Additional Investment

Once an account is open, additional purchases of Fund shares may be made in any amount.

General Information

You may purchase or redeem (sell) shares of the Fund on each day that the New York Stock Exchange ("NYSE") is open for business. Transactions may be initiated by written request, by telephone or through your financial intermediary. Written requests to the Fund should be sent to the Blue Current Global Dividend Fund, c/o Ultimus Fund Solutions, LLC, P.O. Box 46707, Cincinnati, Ohio 45246-0707. For more information about purchasing and redeeming shares, please see "How to Buy Shares" and "How to Redeem Shares" in this Prospectus or call 1-800-514-3583 for assistance.

TAX INFORMATION

The Fund's distributions are generally taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. Such tax-deferred arrangements may be taxed later upon withdrawal of monies from those arrangements.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase the Fund through a broker-dealer or any other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. These payments are sometimes referred to as “revenue sharing”. Ask your salesperson or visit your financial intermediary’s website for more information.

INVESTMENT OBJECTIVE, INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective

The Fund seeks current income and capital appreciation. The Board has reserved the right to change the investment objective of the Fund without shareholder approval upon 60 days advance written notice.

Investment Strategies

The Fund seeks to achieve its investment objective by generally investing in dividend-paying equity securities of companies whose stock are selling at discounts to the Adviser's estimate of their intrinsic value. The Fund invests primarily in domestic and foreign equity securities such as common and preferred stock that are currently paying dividends. In order to hedge against currency risk to its foreign equity securities, the Fund will invest in forward foreign currency exchange contracts ("forwards"). The Fund may also invest in publicly traded MLPs and ETFs that tend to pay dividends. Under normal circumstances, the Fund will invest at least 80% of its net assets in equity securities that either have paid a dividend in the 12 months prior to purchase, or are expected by the Adviser to pay a dividend within 12 months following the Fund's purchase of the security. There are no restrictions as to the market capitalization of companies in which the Fund invests. Under normal market conditions, the Fund will generally hold securities of 25 to 50 companies.

An MLP is a limited partnership, the securities of which are traded on a public exchange or in the over-the-counter markets, that is eligible for special tax treatment under the Internal Revenue Code of 1986, as amended (the "Code"). To qualify as an MLP, the partnership must receive at least 90% of its income from certain qualifying sources, including real estate, commodities or natural resources. The Adviser believes that MLPs are an efficient way to gain portfolio exposure to such asset classes.

In selecting investments for the Fund, the Adviser seeks securities that the Adviser believes are undervalued, high-quality dividend equities issued by companies with a commitment to dividend growth, and pay above-market dividend yields. The Adviser considers such factors as dividend sustainability, balance sheet quality, growth characteristics, and valuation when selecting investments. Throughout this process the Adviser applies fundamental, "bottom-up" analysis when selecting investments for the Fund. This analysis focuses on the specific attributes of each company rather than the industry in which the company operates or the economy in general.

The Fund seeks to have a diversified portfolio by issuer, industry, and country. The Fund will invest, under normal market conditions, in at least three different countries, one of which will be the United States, and invest at least 40% of its assets in foreign securities. The Fund's foreign securities will primarily be in companies in developed countries.

The Fund's investment in foreign securities may include investing in securities traded on foreign exchanges, investing in ADRs listed on U.S. stock exchanges, or investing in ETFs that invest in foreign securities. ADRs are depositary receipts generally issued by a bank

or other financial institution and represents an ownership interest in the common stock or other equity securities of a foreign company. The Fund may seek to hedge against currency fluctuations and deviations involving its foreign equity securities, including by investing in forward foreign currency exchange contracts. ADRs are depositary receipts generally issued by a bank or other financial institution and represents an ownership interest in the common stock or other equity securities of a foreign company.

A security may be sold when the issue reaches its intrinsic value as determined by the Adviser, the Adviser has identified a more attractive security, or the security no longer meets the Adviser's dividend-paying criteria.

Investment Risks

The principal risks associated with the Fund's investment strategies are generally described below. The Fund may be subject to additional risks because the types of investments the Fund makes and changes in market conditions. As with any mutual fund investment, there is a risk that you could lose money by investing in the Fund. The success of the Fund's investment strategy depends largely upon the Adviser's skill in selecting securities for purchase and sale by the Fund and there is no assurance that the Fund will achieve its investment objective. Because of the types of securities in which the Fund invests and the investment techniques the Adviser uses, the Fund is designed for investors who are investing for the long term. The Fund may not be appropriate for use as a complete investment program.

Stock Market Risk – The return on and value of an investment in the Fund will fluctuate in response to stock market movements. Stocks are subject to market risks, such as a rapid increase or decrease in a stock's value or liquidity, fluctuations in price due to earnings, economic conditions and other factors beyond the control of the Adviser. A company's share price may decline if a company does not perform as expected, if it is not well managed, if there is a decreased demand for its products or services, or during periods of economic uncertainty or stock market turbulence, among other conditions. In a declining stock market, stock prices for all companies (including those in the Fund's portfolio) may decline, regardless of their long-term prospects. During periods of market volatility, stock prices can change drastically, and you could lose money over short or long term periods.

Management Style Risk – The portfolio manager's method of security selection may not be successful and the Fund may underperform relative to other mutual funds that employ similar investment strategies. In addition, the Adviser may select investments that fail to perform as anticipated. The ability of the Fund to meet its investment objective is directly related to the success of the Adviser's investment process and there is no guarantee that the Adviser's judgments about the attractiveness, value, dividend-paying and potential appreciation of a particular investment for the Fund will be correct or produce the desired results.

Investment Style Risk – Returns from dividend-paying stocks may underperform the returns from the overall stock market. Since the Fund invests primarily in dividend-paying stocks, the Fund’s performance may at time be better or worse than the performance of the mutual funds that focus on other types of stock strategies or have a broader investment style.

Large-Capitalization Company Risk – Large-capitalization companies are generally more mature and may be unable to respond as quickly as smaller companies to new competitive challenges, such as changes in technology and consumer tastes, and also may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion.

Small- and Mid-Capitalization Company Risk – Investments in small-capitalization and mid-capitalization companies often involve higher risks than large-capitalization companies because these companies may lack the management experience, financial resources, product diversification and competitive strengths of larger companies. Therefore, the securities of small- and mid- capitalization companies may be more susceptible to market downturns and other events, and their prices may be subject to greater price fluctuation. In addition, the securities of small- and mid-capitalization companies may trade less frequently and carry less volume than that of larger companies. Because small- and mid-capitalization companies normally have fewer shares outstanding than larger companies, it may be difficult to buy or sell significant amounts of such shares without an unfavorable impact on prevailing prices. Small-capitalization and mid-capitalization companies are typically subject to greater changes in earnings and business prospects than larger, more established companies and also may not be widely followed by investors, which can lower the demand for their stock.

Foreign Securities Risk – Investments in foreign securities involve risks that may be different from those of U.S. securities. Foreign securities may not be subject to uniform audit, financial reporting, or disclosure standards, practices, or requirements comparable to those found in the United States. Foreign securities are also subject to the risk of adverse changes in investment or exchange control regulations or currency exchange rates, expropriation or confiscatory taxation, limitations on the removal of funds or other assets, political or social instability and nationalization of companies or industries. In addition, the dividend and interest payable on certain of the Fund’s foreign securities may be subject to foreign withholding taxes. Foreign securities also involve currency risk, which is the risk that the value of a foreign security will decrease due to changes in the relative value of the U.S. dollar and the security’s underlying foreign currency. ADRs and ETFs investing in foreign securities are subject to risks similar to those associated with direct investments in foreign securities.

Currency Risk – Changes in foreign currency exchange rates will affect the value of the Fund’s foreign securities. Generally, when the value of the U.S. dollar raises relative to a foreign currency, securities valued in that foreign currency lose value in terms of U.S. dollars since that foreign currency is worth fewer U.S. dollars. Currency exchange rates can fluctuate for a number reasons, including the economic stability of a country, changes

in interest rates, devaluation of a currency by a country's government or central banking authority, and overall demand for a currency or lack thereof. Exchange rates can change significantly over short periods.

The Fund may seek to hedge against currency exposure, such as investing in forward foreign currency exchange contracts, to attempt to reduce the effect of currency fluctuations and deviations. However, the Fund's use of currency hedging may not be successful and the use of such strategy may lower the Fund's potential returns.

Forward Currency Exchange Contract Risk – Forward Currency Exchange Contracts (“Forex Contracts”) are individually negotiated and privately traded agreements to buy or sell a specific currency at a future date and at a price set at the time of the transaction. Although Forex Contracts may reduce the risk of loss from a change in value of a currency, they also limit any potential gains, are subject to the creditworthiness of the counterparty, do not protect against fluctuations in the value of the underlying security, and are subject to additional risk of loss or depreciation due to: unanticipated adverse changes in interest rates, indices, and currency exchange rates; the inability to close out a position; default by the counterparty; imperfect correlation between a forward and the underlying currency; and tax constraints on closing out positions. The loss on Forex Contracts may substantially exceed the amount invested in these instruments.

ETF Risk – ETFs typically hold a portfolio of securities designed to track the performance of a particular index, while others may be managed in accordance with a particular investment objective and strategy, similar to other non-index based investment companies. Through its positions in ETFs and other investment companies, the Fund will be subject to the risks associated with such vehicles' investments, including the possibility that the value of the securities or instruments held by an ETF or other investment company could decrease. In addition, certain of the ETFs or other investment companies in which the Fund may invest may hold common portfolio positions, thereby reducing any diversification benefits.

Investments in ETFs are subject to the risk that the market price of an ETF's shares may differ from its NAV. This difference in price may be due to the fact that the supply and demand in the market for ETF shares at any point in time is not always identical to the supply and demand in the market for the underlying basket of securities. Accordingly, there may be times when an ETF trades at a premium (creating the risk that the Fund pays more than NAV for an ETF when making a purchase) or discount (creating the risks that the Fund's NAV is reduced for undervalued ETFs it holds, and that the Fund receives less than NAV when selling an ETF). Investments in index-based ETFs are also subject to the risk that the ETF may not be able to replicate exactly the performance of the indices it tracks because the total return generated by the securities will be reduced by transaction costs incurred in adjusting the actual balance of the securities. In addition, the index-based ETFs in which the Fund invests may incur expenses not incurred by their applicable indices. Certain securities comprising the indices tracked by index-based ETFs may, from time to time, temporarily be unavailable, which may further impede the ETFs' ability to track their applicable indices or match their performance. To the extent that the Fund invests in ETFs, the Fund would bear its pro-rata portion of such ETF's advisory fees and operational expenses.

MLP Risk – A MLP is a limited partnership in which the ownership units are publicly traded. MLPs generally acquire interests in natural resource, energy, or real estate assets and distribute the resulting income to investors. Investments in MLPs are generally subject to many of the risks that apply to investments in partnerships, such as limited control and limited voting rights and fewer corporate protections than afforded investors in a corporation. MLPs that concentrate in a particular industry or region are subject to risks associated with such industry or region. Investing in MLPs also involves certain risks related to investing in the underlying assets of the MLPs and risks associated with pooled investment vehicles, such as adverse economic conditions, an increase in the market price of the underlying commodity, higher taxes or other regulatory actions that increase costs, a shift in consumer demand or conflicts of interest with the general partner. The benefit derived from the Fund’s investment in MLPs is largely dependent on the MLPs being treated as partnerships for federal income tax purposes, so any change to this status would adversely affect its value. The Fund’s investment in MLPs may result in the layering of expenses such that shareholders will indirectly bear a proportionate share of the MLP’s operating expenses in addition to paying Fund expenses.

MLP Tax Risk – MLPs generally do not pay U.S. federal income tax at the partnership level. Rather, each partner in an MLP is allocated a share of the MLP’s income, gains, losses, deductions and expenses. A change in current tax law, or a change in the underlying business mix of a given MLP, could result in an MLP being treated as a corporation for U.S. federal income tax purposes, which would result in such MLP being required to pay U.S. federal income tax on its taxable income, and could result in lower income to the Fund and a reduction in the value of the Fund’s investment in the MLP. Additionally, open-end mutual funds seeking to be taxed as regulated investment companies, such as the Fund, are limited in their ability to invest in MLPs by current federal tax rules. If a mutual fund invests more than 25% of the value of its total assets in MLP securities, it will be subject to federal corporate income tax, currently at a maximum rate of 35%. For more information about the Fund’s tax status, please see “Dividends, Distributions and Taxes” in this Prospectus.

In addition to the strategies and risks described above, the Fund may invest in other types of securities whose risks are described below or in the Fund’s Statement of Additional Information (“SAI”).

Investments in Money Market Instruments – The Fund will typically hold a portion of its assets in cash or cash equivalent securities, short-term debt securities, including repurchase agreements and money market mutual fund shares (“Money Market Instruments”). The Fund may invest in Money Market Instruments to maintain liquidity or pending the selection of investments. When the Fund invests in a money market mutual fund, the shareholders of the Fund generally will be subject to duplicative management fees. To the extent the Fund holds other registered investment companies, including money market mutual funds, the Fund will incur Acquired Fund fees and expenses (as defined by the Securities and Exchange Commission).

Temporary Defensive Positions – From time to time, the Fund also may take temporary defensive positions inconsistent with the Fund’s principal investment strategies in an attempt to respond to adverse market, economic, political or other conditions, and in doing so, may invest up to 100% of its assets in Money Market Instruments. As a result of taking a temporary defensive position, the Fund may not achieve its investment objective.

Portfolio Holdings and Disclosure Policy – A description of the Fund’s policies and procedures with respect to the disclosure of its portfolio holdings is available in the Fund’s SAI.

Additional Information – Whether the Fund is an appropriate investment for an investor will depend largely upon the investor’s financial resources and individual investment goals and objectives. The Fund may not be appropriate for investors who engage in short-term trading and/or other speculative strategies or styles. The Adviser purchases portfolio holdings with the intention of holding the investments for an extended period of time.

CFTC Regulation Notice – To the extent the Fund makes investments regulated by the Commodity Futures Trading Commission (the “CFTC”), the Fund intends to do so in accordance with Rule 4.5 under the Commodity Exchange Act, as amended (the “CEA”). The Trust, on behalf of the Fund, has filed a notice of eligibility for exclusion from the definition of the term “commodity pool operator” in accordance with Rule 4.5 and therefore, the Fund is not subject to registration or regulation as a commodity pool operator under the CEA. If the Fund is unable to comply with the requirements of Rule 4.5, it may be required to modify its investment strategies or be subject to CFTC registration requirements, either of which may have an adverse effect on the Fund.

FUND MANAGEMENT

The Investment Adviser

Edge Advisors, LLC, located at 1380 West Paces Ferry Rd., Suite 1000, Atlanta, GA 30327, serves as the investment adviser to the Fund. Pursuant to the Advisory Agreement, the Adviser provides the Fund with a continuous program of investing the Fund’s assets and determining the composition of the Fund’s portfolio. The Adviser was organized in 2006 and also provides investment advisory services to high net-worth individual and institutions, such as corporations, defined benefit plans (both private and governmental), profit sharing plans, endowments and charitable foundations, and other investment pools.

For its services, the Fund pays the Adviser a monthly investment advisory fee (the “Management Fee”) computed at the annual rate of 0.99% of its average daily net assets under the terms of the Advisory Agreement. The Adviser has contractually agreed under an expense limitation agreement (the “Expense Limitation Agreement”), until January 1, 2019, to reduce its Management Fee and reimburse Other Expenses to the extent necessary to limit Total Annual Fund Operating Expenses of the Fund (exclusive of brokerage costs, taxes, interest, borrowing costs such as interest and dividend expenses on securities sold short, Acquired Fund fees and expenses, extraordinary expenses such as litigation and merger or reorganization costs and other expenses not incurred in the ordinary course of

the Fund's business, and amounts, if any, payable pursuant to a plan adopted in accordance with Rule 12b-1 under the 1940 Act) to an amount not exceeding to 1.24% of the average daily net assets of the Investor Class shares and 0.99% of the average daily net assets of the Institutional Class shares. Management Fee reductions and expense reimbursements by the Adviser are subject to repayment by the Fund for a period of 3 years after such fees and expenses were incurred, provided that the repayments do not cause Total Annual Fund Operating Expenses (exclusive of such reductions and reimbursements) to exceed (i) the expense limitation then in effect, if any, and (ii) the expense limitation in effect at the time the expenses to be repaid were incurred. It is expected that the Expense Limitation Agreement will continue from year-to-year provided such continuance is approved by the Board. The Expense Limitation Agreement may be terminated by the Adviser or the Board at the end of the current term upon not less than 90 days' notice to the other party as set forth in the Expense Limitation Agreement. The Expense Limitation Agreement will terminate automatically if the Fund's Advisory Agreement with the Adviser is terminated. The net aggregate management fee paid to the Adviser by the Fund for the fiscal year ended August 31, 2017 as a percentage of average net assets was 0.53%. A discussion of the factors considered by the Board in its approval of the Fund's Advisory Agreement with the Adviser, including the Board's conclusions with respect thereto, is available in the Fund's Annual Report to shareholders for the fiscal year ended August 31, 2017.

Portfolio Managers

Henry M. Jones is a Co-Portfolio Manager of the Fund and has managed the portfolio since its inception in September 2014. Mr. Jones has been a Managing Partner of the Adviser since 2012 and co-founded the Adviser in 2006. Prior to co-founding the Adviser, Mr. Jones was a Director at Credit Suisse. He also served as portfolio manager for an equity fund and was an analyst for the Excelsior Value & Restructuring Fund. Mr. Jones earned a Bachelor of Arts in History and Economics with distinction (Omicron Delta Epsilon) from Hampden-Sydney College and a Master of Business Administration from the University of North Carolina Kenan-Flagler School of Business.

Dennis Sabo, CFA, is a Co-Portfolio Manager of the Fund and has managed the portfolio since its inception in September 2014. Mr. Sabo has been a Partner of the Adviser since 2017 and has co-managed equity strategies since 2010. Mr. Sabo is a member of the Adviser's Advisory Committee and Strategy Team, where he is responsible for equity investments and asset allocation recommendations. Prior to joining Edge, Mr. Sabo was an equity analyst at Jodocus Capital, a long/short hedge fund where he was a sector generalist. Prior to Jodocus, Mr. Sabo was an equity analyst at Credit Suisse where he was a member of the Global Media team. Mr. Sabo was also an associate at Suntrust Robinson Humphrey and covered the consumer technology sector. Prior to his career in investment management, Mr. Sabo worked in telecommunications engineering for six years. Mr. Sabo earned a Bachelor of Science Electrical Engineering from the University of Miami and a Master of Business Administration from the University of Georgia, where he concentrated on finance and investments.

The SAI provides additional information about the Portfolio Managers' compensation, other accounts managed by the Portfolio Managers, and their ownership of shares of the Fund.

The Administrator and Transfer Agent

Ultimus Fund Solutions, LLC (“Ultimus” or the “Transfer Agent”), located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, serves as the Fund’s administrator, transfer agent and fund accounting agent. Management and administrative services of Ultimus include (i) providing office space, equipment and officers and clerical personnel to the Fund, (ii) obtaining valuations, calculating NAVs and performing other accounting, tax and financial services, (iii) recordkeeping, (iv) regulatory reporting services, (v) processing shareholder account transactions and disbursing dividends and distributions, and (vi) administering custodial and other third party service provider contracts on behalf of the Fund.

The Distributor

Ultimus Fund Distributors, LLC (the “Distributor”), located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, is the Fund’s principal underwriter and serves as the exclusive agent for the distribution of the Fund’s shares. The Distributor may sell the Fund’s shares to or through qualified securities dealers or other approved entities.

The SAI has more detailed information about the Adviser and other service providers to the Fund.

DISTRIBUTION PLAN

The Fund has adopted a plan of distribution for its Investor Class shares (the “12b-1 Plan”) in accordance with Rule 12b-1 under the Act of 1940. The 12b-1 Plan allows the Fund to make payments to securities dealers and other financial organizations (including payments directly to the Adviser and the Distributor) for expenses related to the distribution and servicing of the Fund’s Investor Class shares. The annual fees payable under the 12b-1 Plan may not exceed an amount equal to 0.25% of the Investor Class shares’ average daily net assets. Because 12b-1 Plan fees are paid out of the Fund’s assets on an ongoing basis, over time they will increase the cost of your investment and may cost you more than paying other types of sales charges. Expenses related to the distribution and servicing of the Fund’s Investor Class shares may include, but are not limited to, payments to securities dealers and other persons who are engaged in the sale of Investor Class shares of the Fund and who may be advising shareholders regarding the sale or retention of such shares; expenses of maintaining personnel who render shareholder support services not otherwise provided by the Transfer Agent or the Fund; expenses of formulating and implementing marketing and promotional activities, including direct mail promotions and mass media advertising; expenses of preparing, printing or distributing prospectuses and statements of additional information and reports for recipients other than existing shareholders of the Fund; expenses of obtaining such information, analyses and reports with respect to marketing and promotional activities as the Fund may, from time to time, deem advisable; and any other expenses related to the distribution and servicing of the Fund’s Investor Class shares. The Adviser may make additional payments

to financial organizations from its own assets. The payment by the Adviser of any such additional compensation will not affect the expense ratio of the Fund. As of the date of this Prospectus, the Investor Class shares are not being offered.

HOW THE FUND VALUES ITS SHARES

The NAV of the Fund is calculated as of the close of regular trading on the NYSE (generally 4:00 p.m., Eastern Time) on each day that the NYSE is open for business. Currently, the NYSE is closed on weekends and in recognition of the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. To calculate NAV, the Fund's assets are valued and totaled, liabilities are subtracted, and the balance is divided by the number of shares outstanding. The Fund generally values its portfolio securities at their current market values determined on the basis of available market quotations. However, if market quotations are not available or are considered to be unreliable due to market or other events, portfolio securities will be valued at their fair values, as of the close of regular trading on the NYSE, as determined in good faith under procedures adopted by the Board. When fair value pricing is employed, the prices of securities used by the Fund to calculate its NAV are based on the consideration by the Fund of a number of subjective factors and therefore may differ from quoted or published prices for the same securities. To the extent the assets of the Fund are invested in other open-end investment companies that are not listed on an exchange, the Fund's NAV is calculated based upon the NAVs reported by such open-end investment companies, and the prospectuses for these companies explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing. To the extent the Fund has portfolio securities that are primarily listed on foreign exchanges that trade on weekends or other days when the Fund does not price its shares, the NAV of the Fund's shares may change on days when shareholders will not be able to purchase or redeem the Fund's shares.

Your order to purchase or redeem shares is priced at the NAV next calculated after your order is received in proper form by the Fund. An order is considered to be in "proper form" if it includes all necessary information and documentation related to a purchase or redemption request, and payment in full of the purchase amount.

HOW TO BUY SHARES

Shares are available for purchase from the Fund every day the NYSE is open for business, at the NAV next calculated after receipt of a purchase order in proper form. The Fund reserves the right to reject any purchase request and suspend its offering of shares at any time. Investors who purchase shares through a broker-dealer or other financial intermediary may be charged a fee by such broker-dealer or intermediary. The Fund mails you confirmations of all purchases or redemptions of Fund shares if shares are purchased directly through the Fund. Certificates representing shares are not issued.

Choosing a Share Class

The Fund currently offers one class of shares: Institutional Class shares. The Investor Class shares are not currently offered. When both classes of shares are offered, each share class will represent an ownership interest in the same investment portfolio and have the same rights but each class will have its own expense structure.

Investor Class shares, when offered, will be subject to 12b-1 Plan fees that permit the Fund to pay distribution fees of up to 0.25% of the Investor Class's average net assets per year to those intermediaries offering Investor Class shares. Institutional Class shares are available without a 12b-1 Plan fee to those investors eligible to purchase such shares. Neither the Investor Class nor the Institutional Class shares are not subject to a sales charge.

When a choice of share classes are available, you should consider the size of your investment. Your financial consultant or other financial intermediary can help you determine which share class will be best suited to your personal financial goals. If you qualify to purchase Institutional Class shares, you should purchase them rather than the Investor Class shares, when available, because the Investor Class shares will have higher expenses than the Institutional Class shares. Although each class will invest in the same portfolio of securities, the returns for each class will differ because each class will be subject to different expenses.

If you qualify as a purchaser of Institutional Class shares, but your account is invested in Investor Class shares, when available, you may convert your Investor Class shares to Institutional Class shares based on the relative NAV of the two Classes on the conversion date.

Minimum Initial Investment

For Investor Class shares, the minimum initial investment for regular accounts in the Fund is \$2,500. As of the date of this Prospectus, the Investor Class shares are not being offered. For Institutional Class shares, the minimum initial investment in the Fund is \$100,000. These minimum investment requirements may be waived or reduced for any reason at the discretion of the Fund.

Opening an Account

An account may be opened by mail or bank wire if it is submitted in proper form, as follows:

By Mail. To open a new account by mail:

- Complete and sign the account application.
- Enclose a check payable to the Blue Current Global Dividend Fund; please reference Investor Class or Institutional Class to ensure proper crediting to your account.
- Mail the application and the check to the Transfer Agent at the following address:

Blue Current Global Dividend Fund
c/o Ultimus Fund Solutions, LLC
P.O. Box 46707
Cincinnati, Ohio 45246-0707

Shares will be issued at the NAV next computed after receipt of your application and check. All purchases must be made in U.S. dollars and checks must be drawn on U.S. financial institutions. The Fund does not accept cash, drafts, “starter” checks, travelers checks, credit card checks, post-dated checks, cashier’s checks under \$10,000, or money orders. In addition, the Fund does not accept checks made payable to third parties. When shares are purchased by check, the proceeds from the redemption of those shares will not be paid until the purchase check has been converted to federal funds, which could take up to 15 calendar days from the date of purchase. If an order to purchase shares is canceled because your check does not clear, you will be responsible for any resulting losses or other fees incurred by the Fund or the Transfer Agent in the transaction.

By sending your check to the Transfer Agent, please be aware that you are authorizing the Transfer Agent to make a one-time electronic debit from your account at the financial institution indicated on your check. Your bank account will be debited as early as the same day the Transfer Agent receives your payment in the amount of your check; no additional amount will be added to the total. The transaction will appear on your bank statement. Your original check will be destroyed once processed, and you will not receive your canceled check back. If the Transfer Agent cannot post the transaction electronically, you authorize the Transfer Agent to present an image copy of your check for payment.

By Wire. To open a new account by wire of federal funds, call the Transfer Agent at 1-800-514-3583 to obtain the necessary information to instruct your financial institution to wire your investment. A representative will assist you in obtaining an account application, which must be completed, signed and faxed (or mailed) to the Transfer Agent before payment by wire will be accepted.

The Fund requires advance notification of all wire purchases in order to ensure that the wire is received in proper form and that your account is subsequently credited in a timely fashion. Failure to notify the Transfer Agent prior to the transmittal of the bank wire may result in a delay in purchasing shares of the Fund. An order, following proper advance notification to the Transfer Agent, is considered received when U.S. Bank, N.A., the Fund’s custodian, receives payment by wire. If your account application was faxed to the Transfer Agent, you must also mail the completed account application to the Transfer Agent on the same day the wire payment is made. See “Opening an Account – By Mail” above. Your financial institution may charge a fee for wiring funds. Shares will be issued at the NAV next computed after receipt of your wire in proper form.

Through Your Broker or Financial Institution. Shares of the Fund may be purchased through certain brokerage firms and financial institutions that are authorized to accept orders on behalf of the Fund at the NAV next determined after your order is received by such organization in proper form. These organizations are authorized to designate other intermediaries to receive purchase orders on the Fund’s behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or, if applicable, a broker’s authorized designee, receives the order in proper form. These organizations may charge you transaction fees on purchases of Fund shares and may impose other charges or restrictions or account options that differ from those applicable to shareholders who purchase shares directly through the Fund. These organizations may be the shareholders of record of your shares. The Fund is not responsible for ensuring

that the organizations carry out their obligations to their customers. Shareholders investing in this manner should look to the organization through which they invest for specific instructions on how to purchase and redeem shares.

Subsequent Investments

Once an account is open, additional purchases of Fund shares may be made in any amount. Additional purchases must be submitted in proper form as described below. Additional purchases may be made:

- By sending a check, made payable to Blue Current Global Dividend Fund, c/o Ultimus Fund Solutions, LLC, P.O. Box 46707, Cincinnati, Ohio 45246-0707. Be sure to note your account number on the memo line of your check. The shareholder will be responsible for any fees incurred or losses suffered by the Fund as a result of any check returned for insufficient funds.
- By wire to the Fund account as described under “Opening an Account – By Wire.” Shareholders are required to call the Transfer Agent at 1-800-514-3583 before wiring funds.
- Through your brokerage firm or other financial institution.

Automatic Investment Plan and Direct Deposit Plans

You may make automatic monthly investments in the Fund from your bank, savings and loan or other depository institution. The minimum investments under the automatic investment plan must be at least \$100 under the plan and are made on the 15th and/or last business day of the month. The Transfer Agent currently pays the costs of this service, but reserves the right, upon 30 days written notice, to make reasonable charges. Your depository institution may impose its own charge for making transfers from your account.

Your employer may offer a direct deposit plan which will allow you to have all or a portion of your paycheck transferred automatically to purchase shares of the Fund. Social Security recipients may have all or a portion of their social security check transferred automatically to purchase shares of the Fund. Please call 1-800-514-3583 for more information about the automatic investment plan and direct deposit plans.

Purchases in Kind

The Fund may accept securities in lieu of cash in payment for the purchase of shares of the Fund. The acceptance of such securities is at the sole discretion of the Adviser based upon the suitability of the securities as an investment for the Fund, the marketability of such securities, and other factors which the Fund may deem appropriate. If accepted, the securities will be valued using the same criteria and methods utilized for valuing securities to compute the Fund's NAV.

Customer Identification and Verification

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person that opens a new account, and to determine whether such person's name appears on government lists of known or suspected terrorists and terrorist organizations. As a result, the Fund must obtain the following information for each person that opens a new account:

- Name;
- Date of birth (for individuals);
- Residential or business street address (although post office boxes are still permitted for mailing); and
- Social security number, taxpayer identification number, or other identifying number.

You may also be asked for a copy of your driver's license, passport, or other identifying document in order to verify your identity. In addition, it may be necessary to verify your identity by cross-referencing your identification information with a consumer report or other electronic database. Additional information may be required to open accounts for corporations and other entities. *Federal law prohibits the Fund and other financial institutions from opening a new account unless they receive the minimum identifying information listed above.*

After an account is opened, the Fund may restrict your ability to purchase additional shares until your identity is verified. The Fund also may close your account or take other appropriate action if they are unable to verify your identity within a reasonable time. If your account is closed for this reason, your shares will be redeemed at the NAV next calculated after the account is closed. In that case, your redemption proceeds may be worth more or less than your original investment. The Fund will not be responsible for any loss incurred due to the Fund's inability to verify your identity.

Frequent Trading Policies

Frequent purchases and redemptions of Fund shares by a shareholder may harm other Fund shareholders by interfering with the efficient management of the Fund's portfolio, increasing brokerage and administrative costs, and potentially diluting the value of the Fund's shares. The Fund does not accommodate frequent purchases or redemptions of Fund shares that result in disruptive trading.

The Board has adopted policies and procedures in an effort to detect and prevent market timing in the Fund. The Fund, through its service providers, monitors shareholder trading activity to ensure it complies with the Fund's policies. The Fund prepares reports illustrating purchase and redemption activity to detect disruptive trading activity. When monitoring shareholder purchases and redemptions, the Fund does not apply a quantitative definition to frequent trading. Instead the Fund uses a subjective approach that permits it to reject any purchase orders that it believes may be indicative of market timing or disruptive trading. The right to reject a purchase order applies to any purchase

order, including a purchase order placed by financial intermediaries. The Fund may also modify any terms or conditions of purchases of Fund shares or withdraw all or any part of the offering made by this Prospectus. The Fund's policies and procedures to prevent disruptive trading are applied uniformly to all shareholders. These actions, in the Board's opinion, should help reduce the risk of abusive trading in the Fund.

When financial intermediaries establish omnibus accounts in the Fund for their clients, the Fund reviews trading activity at the omnibus account level and looks for activity that may indicate potential disruptive trading. If the Fund detects potentially disruptive trading activity, the Fund will seek the assistance of the intermediary to investigate that trading activity and take appropriate action, including prohibiting additional purchases of Fund shares by the intermediary and/or its client. Each intermediary that offers the Fund's shares through an omnibus account has entered into an information sharing agreement with the Fund designed to assist the Fund in stopping future disruptive trading. Intermediaries may apply frequent trading policies that differ from those described in this Prospectus. If you invest in the Fund through an intermediary, please read that firm's program materials carefully to learn of any rules or fees that may apply.

Although the Fund has taken steps to discourage frequent purchases and redemptions of Fund shares, it cannot guarantee that such trading will not occur.

HOW TO REDEEM SHARES

Shares of the Fund may be redeemed on any day on which the Fund computes its NAV. Shares are redeemed at the NAV next determined after the Transfer Agent receives your redemption request in proper form as described below. Redemption requests may be made by mail or by telephone.

By Mail

You may redeem shares by mailing a written request to Blue Current Global Dividend Fund, c/o Ultimus Fund Solutions, LLC, P.O. Box 46707, Cincinnati, Ohio 45246-0707. Written requests must state the shareholder's name, the account number and the shares or dollar amount to be redeemed and be signed exactly as the shares are registered with the Fund.

Signature Guarantees

If the shares to be redeemed have a value of greater than \$50,000, or if the payment of the proceeds of a redemption of any amount is to be sent to a person other than the shareholder of record or to an address other than that on record with the Fund, you must have all signatures on written redemption requests guaranteed. If the name(s) or the address on your account has changed within the previous 15 days of your redemption request, the request must be made in writing with your signature guaranteed, regardless of the value of the shares being redeemed. The Transfer Agent will accept signatures guaranteed by a domestic bank or trust company, broker, dealer, clearing agency, savings association or other financial institution that participates in the Securities Transfer

Agents Medallion Program (“STAMP”) sponsored by the Securities Transfer Association. Signature guarantees from financial institutions that do not participate in STAMP will not be accepted. A notary public cannot provide a signature guarantee. The Transfer Agent has adopted standards for accepting signature guarantees from the above institutions. The Fund and the Transfer Agent reserve the right to amend these standards at any time without notice.

Redemption requests by corporate and fiduciary shareholders must be accompanied by appropriate documentation establishing the authority of the person seeking to act on behalf of the account. Forms of resolutions and other documentation to assist in compliance with the Transfer Agent’s procedures may be obtained by calling the Transfer Agent.

By Telephone

Unless you specifically decline the telephone redemption privilege on your account application, you may also redeem shares having a value of \$50,000 or less by telephone by calling the Transfer Agent at 1-800-514-3583.

Telephone redemptions may be requested only if the proceeds are to be sent to the shareholder of record and mailed to the address on record with the Fund. Account designations may be changed by sending the Transfer Agent a written request with all signatures guaranteed as described above. Upon request, redemption proceeds of \$100 or more may be transferred electronically from an account you maintain with a financial institution by an Automated Clearing House (“ACH”) transaction, and proceeds of \$1,000 or more may be transferred by wire, in either case to the account registration stated on the account application. Shareholders may be charged a fee of \$15 by the Fund’s custodian for outgoing wires.

The Transfer Agent requires personal identification before accepting any redemption request by telephone, and telephone redemption instructions may be recorded. If reasonable procedures are followed by the Transfer Agent, neither the Transfer Agent nor the Fund will be liable for losses due to unauthorized or fraudulent telephone instructions. In the event of drastic economic or market changes, a shareholder may experience difficulty in redeeming shares by telephone. If such a case should occur, redemption by mail should be considered.

Through Your Broker or Financial Institution

You may also redeem your shares through a brokerage firm or financial institution that has been authorized to accept orders on behalf of the Fund at the NAV next determined after your order is received by such organization in proper form. These organizations are authorized to designate other intermediaries to receive redemption orders on the Fund’s behalf. The Fund calculates its NAV as of the close of regular trading on the NYSE (generally 4:00 p.m. Eastern Time). Your brokerage firm or financial institution may require a redemption request to be received at an earlier time during the day in order for your redemption to be effective as of the day the order is received. Such an

organization may charge you transaction fees on redemptions of Fund shares and may impose other charges or restrictions or account options that differ from those applicable to shareholders who redeem shares directly through the Transfer Agent.

Receiving Payment

The length of time the Fund typically expects to pay redemption proceeds is the same regardless of whether the payment is made by check, wire or ACH. The Fund typically expects to pay redemption proceeds for shares redeemed within the following days after receipt by the Transfer Agent of a redemption request in proper form:

- For payment by check, the Fund typically expects to mail the check within one (1) to three (3) business days;
- For payment by wire or ACH, the Fund typically expects to process the payment within one (1) to three (3) business days.

Payment of redemption proceeds may take longer than the time the Fund typically expects and may take up to 7 days as permitted under the 1940 Act. Under unusual circumstances as permitted by the SEC, the Fund may suspend the right of redemption or delay payment of redemption proceeds for more than 7 days. When shares are purchased by check or through ACH, the proceeds from the redemption of those shares will not be paid until the purchase check or ACH transfer has been converted to federal funds, which could take up to 15 calendar days.

Redemption Fee

A redemption fee of 2% of the dollar value of the shares redeemed, payable to the Fund, is imposed on any redemption of Fund shares occurring within 7 days of the date of purchase. No redemption fee will be imposed on the involuntary redemption of accounts below the minimum investment amount, the redemption of shares representing reinvested dividends or capital gains distributions, or on amounts representing capital appreciation of shares. In determining whether a redemption fee is applicable to a particular redemption, it is assumed that the redemption is first of shares acquired pursuant to the reinvestment of dividends and capital gains distributions, and next of other shares held by the shareholder for the longest period of time.

The redemption fee is waived on required distributions from IRA accounts due to the shareholder reaching age 70½, and for any partial or complete redemption following death or disability (as defined in Section 22(e)(3) of the Internal Revenue Code) of a shareholder named on the account. This exemption is available only for shares held at the time of death or initial determination of disability and if the Fund is notified of the requested exemption at the time of the redemption request. The Fund may also require further documentation in connection with these waivers.

The redemption fee is also waived for shareholders systematically redeeming Fund shares under the automatic withdrawal plan (see “Automatic Withdrawal Plan” below).

Minimum Account Balance

Due to the high cost of maintaining shareholder accounts, the Fund may involuntarily redeem shares in an account, and pay the proceeds to the shareholder, if the shareholder's activity causes the account balance to fall below a share class's minimum initial investment amount. Such automatic redemptions may cause a taxable event for the shareholder. An automatic redemption does not apply, however, if the balance falls below the minimum initial investment amount solely because of a decline in the Fund's NAV. Before shares are redeemed to close an account, the shareholder is notified in writing and allowed 30 days to purchase additional shares to meet the minimum account balance requirement.

Automatic Withdrawal Plan

If the shares in your account have a value of at least \$5,000, you (or another person you have designated) may receive monthly or quarterly payments in a specified amount of not less than \$100 each. There is currently no charge for this service, but the Transfer Agent reserves the right, upon 30 days written notice, to make reasonable charges. Telephone the Transfer Agent toll-free at 1-800-514-3583 for additional information.

Other Redemption Information

Generally, all redemptions will be paid in cash. The Fund typically expects to satisfy redemption requests by using holdings of cash or cash equivalents or selling portfolio assets. On a less regular basis and if the Adviser believes it is in the best interest of the Fund and its shareholders not to sell portfolio assets, the Fund may satisfy redemption requests by using short-term borrowing from the Fund's custodian. These methods normally will be used during both regular and stressed market conditions. In addition to paying redemption proceeds in cash, the Fund reserves the right to make payment for a redemption in securities rather than cash, which is known as a "redemption in kind." Redemptions in kind will be made only under extraordinary circumstances and if the Fund deems it advisable for the benefit of all shareholders, such as a very large redemption that could affect Fund operations (for example, more than 1% of the Fund's net assets). A redemption in kind will consist of securities equal in market value to the Fund shares being redeemed, using the same valuation procedures that the Fund uses to compute its NAV. Redemption in kind proceeds will typically be made by delivering a pro-rata amount of the Fund's holdings to the redeeming shareholder within 7 days after the Fund's receipt of the redemption order in proper form. If the Fund redeems your shares in kind, you will bear the market risks associated with maintaining or selling the securities that are transferred as redemption proceeds. In addition, when you sell these securities, you will pay taxes and brokerage charges associated with selling the securities.

DIVIDENDS, DISTRIBUTIONS AND TAXES

Income dividends, if any, are normally declared and paid quarterly by the Fund, while net capital gain distributions, if any, are normally declared and paid annually by the Fund in December. Your distributions of dividends and capital gains will be automatically reinvested in additional shares of the Fund unless you elect to receive them in cash. The Fund's distributions of income and capital gains, whether received in cash or reinvested in additional shares, will be subject to federal income tax.

The Fund has qualified and plans to continue to qualify as a regulated investment company for federal income tax purposes, and as such, will not be subject to federal income tax on its taxable income and gains that it distributes to its shareholders. The Fund intends to distribute its income and gains in such a way that it will not be subject to a federal excise tax on certain undistributed amounts.

Distributions attributable to ordinary income and short-term capital gains are generally taxed as ordinary income, although certain income dividends may be taxed to non-corporate shareholders at long-term capital gains rates. In the case of corporations that hold shares of the Fund, certain income from the Fund may qualify for a 70% dividends-received deduction. Distributions of long-term capital gains are generally taxed as long-term capital gains, regardless of how long you have held your Fund shares.

When you redeem Fund shares, you will generally realize a capital gain or loss as long as you hold the shares as capital assets. Except for investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts, and tax-exempt investors that do not borrow to purchase Fund shares, any gain realized on a redemption of Fund shares will be subject to federal income tax.

You will be notified by February 15th of each year about the federal tax status of distributions made by the Fund during the prior year. Depending on your residence for tax purposes, distributions also may be subject to state and local taxes.

Federal law requires the Fund to withhold taxes on distributions paid to shareholders who fail to provide a social security number or taxpayer identification number or fail to certify that such number is correct. Foreign shareholders may be subject to special withholding requirements.

Because everyone's tax situation is not the same, you should consult your tax professional about federal, state and local tax consequences of an investment in the Fund.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total return in the table represents the rate that an investor would have earned on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been audited by the Fund's independent registered public accounting firm, Cohen & Company, Ltd. whose report, along with the Fund's financial statements, is included in the Annual Report to shareholders, which may be obtained at no charge by calling the Fund at 1-800-514-3583 or by visiting the Fund's website www.bluecurrentfunds.com.

BLUE CURRENT GLOBAL DIVIDEND FUND INSTITUTIONAL SHARES

Per Share Data for a Share Outstanding Throughout Each Period

	Year Ended August 31, 2017	Year Ended August 31, 2016	Period Ended August 31, 2015 ^(a)
Net asset value at beginning of period	\$ 10.06	\$ 9.42	\$ 10.00
Income (loss) from investment operations:			
Net investment income	0.24	0.22	0.16
Net realized and unrealized gains (losses) on investments	1.11	0.61	(0.62)
Total from investment operations	1.35	0.83	(0.46)
Less distributions:			
From net investment income	(0.21)	(0.19)	(0.12)
Net asset value at end of period	\$ 11.20	\$ 10.06	\$ 9.42
Total return ^(b)	13.57%	8.92%	(4.65%) ^(c)
Net assets at end of period (000's)	\$ 59,848	\$ 39,632	\$ 30,098
Ratios/supplementary data:			
Ratio of total expenses to average net assets	1.45%	1.55%	1.68% ^(d)
Ratio of net expenses to average net assets ^(e)	0.99%	0.99%	0.99% ^(d)
Ratio of net investment income to average net assets ^(e)	2.47%	2.37%	2.04% ^(d)
Portfolio turnover rate	61%	58%	72% ^(c)

^(a) Represents the period from the commencement of operations (September 18, 2014) through August 31, 2015.

^(b) Total return is a measure of the change in value of an investment in the Fund over the periods covered, which assumes any dividends and capital gain distributions are reinvested in shares of the Fund. The returns shown do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of Fund shares. The total returns would be lower if the Adviser had not reduced advisory fees.

^(c) Not annualized.

^(d) Annualized.

^(e) Ratio was determined after advisory fee reductions by the Adviser.

CUSTOMER PRIVACY NOTICE

FACTS

WHAT DOES THE BLUE CURRENT GLOBAL DIVIDEND FUND (the "Fund") DO WITH YOUR PERSONAL INFORMATION?

Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing.
