

BLUE CURRENT GLOBAL DIVIDEND FUND

INSTITUTIONAL CLASS (BCGDX)

Semi-Annual Report

February 29, 2020

(Unaudited)

Beginning on January 1, 2021, as permitted by regulations adopted by the U.S. Securities and Exchange Commission, paper copies of the Fund's shareholder reports like this one will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you have already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically by contacting the Fund at 1-800-514-3583 or, if you own these shares through a financial intermediary, by contacting your financial intermediary.

You may elect to receive all future reports in paper free of charge. You can inform the Fund that you wish to continue receiving paper copies of your shareholder reports by contacting the Fund at 1-800-514-3583. If you own shares through a financial intermediary, you may contact your financial intermediary or follow instructions included with this document to elect to continue to receive paper copies of your shareholder reports. Your election to receive reports in paper will apply to all Funds held with the Fund complex or at your financial intermediary.

BLUE CURRENT GLOBAL DIVIDEND FUND

LETTER TO SHAREHOLDERS

April 15, 2020

Dear Shareholders:

PERFORMANCE SUMMARY

The Blue Current Global Dividend Fund (the “fund”) returned -5.16% over the six month period ending February 29, 2020. The fund’s benchmark, the MSCI World High Dividend Yield Index, returned -2.14% over the same period. The MSCI World High Dividend Yield Index most accurately reflects the fund’s investment objective to invest in high-quality, dividend paying stocks globally. Since inception, the fund has produced a cumulative return of 21.54%, which compares to a 20.35% cumulative return for the MSCI World High Dividend Yield Index. It is important to remind our investors that we are not managing the fund to track or beat an index. We do not select securities to align with an index, or the underlying sector and country holdings, but rather aim to construct a portfolio of high quality companies that are committed to dividend growth and offer an attractive yield.

Total Returns for period ended February 29, 2020

Fund Name (Institutional Share Class)	QTD (Since 11/30/19)	YTD (Since 12/31/19)	Trailing 1 Year (Since 02/28/19)	Trailing 3 Year (Since 02/28/17)	Since Inception (9/18/14)
Blue Current Global Dividend	-9.22%	-12.20%	-0.33%	10.43%	21.54%
MSCI World High Div Yield Index	-8.94%	-11.63%	-0.10%	13.81%	20.35%

Source: Bloomberg

Past performance is not predictive of future performance. Investment results and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance data quoted. Performance data current to the most recent month end are available by calling 1-800-514-3583.

The Fund underperformed its primary benchmark by 3.02% during the six month period ending February 29th 2020. The majority of the underperformance over the period occurred during the market’s broad and strong advance in November and December, capping one of the strongest years for risk assets in recent memory. While the Fund underperformed over the period, it did outperform the MSCI World High Dividend Yield for the full calendar year 2019. Equally important, the Fund was able to achieve its core mandate by delivering nearly 12% dividend growth by the underlying Fund investments for calendar year 2019.

Similar to all risk assets, the portfolio’s advance was halted in mid-February as the globe viewed the risks from Covid-19 as not being localized to China as it did in January but rather a virus that is capable of spreading to other nations with far greater rapidity and contagion than was imagined. For the year-to-date period through February 29th, the portfolio has drawn down 12.20% versus 11.63% for the benchmark. Given the speed of

the late-February drawdown, we suspect there will be more to come as investors attempt to price the impact of Covid-19 on the global economy. There have been few equity sectors and regions spared by the selloff thus far.

When we examine the contributor's to the Fund's return over the last six months, the technology sector was the largest positive contributor to performance. Taiwan Semiconductor was the largest single contributor within the sector and the overall portfolio, returning +28% over the six-month period. Other than technology, real estate and utilities were also positive contributors over the period. Sectors that detracted from performance include consumer staples, consumer discretionary and financials.

Looking below the sector level, the top three contributors to the Fund's performance over the prior six month period include Taiwan Semiconductor, Microsoft, and Sanofi, while the top three detractors include Anheuser Busch, Diageo, and Danone.

The portfolio's allocation to developed international equities was approximately 44% as of the end of the period, largely unchanged.

BLUE CURRENT PHILOSOPHY & OBJECTIVES

It is important to remind the Fund's shareholders of our philosophy and objectives. In the current environment, investors need to make every penny work for them. With yield in short supply and safe income streams providing little return, quality companies with growing and sustainable cash flow from across the globe might be less risky than you think – and more fruitful.

The Fund utilizes the investment team's expertise in growing cash flow through what we believe is a niche universe of high quality, dividend-paying companies with sustainable business models and dividend policies. The primary objectives are to pay a stable and increasing dividend each quarter and deliver attractive long term capital appreciation to investors.

The Blue Current investment team concentrates on a select portfolio of 25-50 companies across developed markets that meet our stringent qualities. We focus on companies that we believe have a strong history of rewarding shareholders and have the financial ability to continue to increase the dividend over time. We also focus on the future earnings potential of each company and strive to purchase those businesses when they are trading at a discount to their true value.

OUTLOOK SUMMARY

Not surprising given the risks that Covid-19 presents to the global economy, investors have flocked to sovereign debt, specifically U.S. treasuries during this difficult period. Interest rates across all tenors of the yield curve have declined in recent months, pushing rates negative on the front-end of the curve and the U.S. 10-Year Treasury yield to its lowest level in at least 70 years. While other fixed income asset classes dislocated initially, the liquidity measures undertaken by the federal reserve have raised confidence in recent months, bringing liquidity and investors back into the marketplace. The result has been a dampening of yields across investment grade corporates and even the BB tranches of high-yield debt, narrowing the spread versus treasuries.

The disappearance of yield is a trend that started after the Great Financial Crisis and has accelerated in recent weeks at a time when individuals are increasingly needy for dependable, meaningful, quality income to address retirement needs or gaps in personal income that are needed to maintain lifestyles. Given those needs, we believe that dividend-paying equities with dependable cash flows will quickly become the primary choice for income generation in the years ahead. We believe a diversified portfolio similar to Blue Current can yield between 3.0% and 3.5% with underlying investments that are rated Investment-Grade by the credit ratings agencies (Standard and Poors for example). To achieve the same level of yield through fixed income securities requires investors to sift through the junk bond universe.

Through the time of this writing, investors are still struggling to price the short and long-term impacts of Covid-19 while global central banks and governments are relying on unprecedented measures to keep businesses and consumers solvent. At its core, we are witnessing a battle against time. Government have unleashed fiscal and monetary policy actions aimed at supporting the global economy while our health care experts search for a cure. We will be successful on both fronts, but likely not on the same concurrent time schedules. The outcome will be extreme levels of volatility for most of the calendar year. We will emerge from this crisis; however there will be consequences for individuals and corporations. New businesses will emerge, old ones will disappear, but the need to own reasonably priced investments that generate attractive cash flow should be a benefactor in the decades ahead.

Sincerely,

A handwritten signature in black ink, appearing to read "Harry Jones". The signature is stylized with a large, sweeping initial "H" and "J".

Henry "Harry" M. T. Jones
Co-Portfolio Manager

A handwritten signature in black ink, appearing to read "Dennis Sabo". The signature is written in a cursive style with a large, flowing "D" and "S".

Co-Portfolio Manager

Disclosure and Risk Summary

The Letter to Shareholders seeks to describe some of the current opinions and views of the financial markets of Edge Capital Group, LLC (the “Adviser”). Although the Adviser believes it has a reasonable basis for any opinions or views expressed, actual results may differ, sometimes significantly so, from those expected or expressed. The securities held by the Fund that are discussed in the Letter to Shareholders were held during the period covered by this Report. They do not comprise the entire investment portfolio of the Fund, may be sold at any time and may no longer be held by the Fund. For a complete list of securities held in the Fund as of February 29, 2020, please see the Schedule of Investments section of the semi-annual report. The opinions of the Adviser with respect to those securities may change at any time.

The opinions expressed herein are those of the Adviser, and the report is not meant as legal, tax, or financial advice. You should consult your own professional advisors as to the legal, tax, financial, or other matters relevant to the suitability of investing. The external data presented in this report have been obtained from independent sources (as noted) and are believed to be accurate, but no independent verification has been made and accuracy is not guaranteed. The information contained in this report is not intended to address the needs of any particular investor.

The information contained in this document does not constitute an offer to sell any securities nor a solicitation to purchase any securities. Index returns reflect the reinvestment of dividends. An investor should consider the investment objectives, risks, charges and expenses of the Fund carefully before investing. The Fund's prospectus contains this and other important information. To obtain a copy of the Fund's prospectus please visit our website at www.bluecurrentfunds.com or call 1-800-514-3583 and a copy will be sent to you free of charge. Please read the prospectus carefully before you invest. The Blue Current Global Dividend Fund is distributed by Ultimus Fund Distributors, LLC.

PAST PERFORMANCE CANNOT BE CONSTRUED AS AN INDICATOR OF FUTURE RESULTS BECAUSE OF, AMONG OTHER THINGS, POSSIBLE DIFFERENCES IN MARKET CONDITIONS, INVESTMENT STRATEGY, AND REGULATORY CLIMATE. THERE IS NO ASSURANCE THAT THE FUND WILL ACHIEVE ITS INVESTMENT OBJECTIVE. INVESTMENT RESULTS AND PRINCIPAL VALUE WILL FLUCTUATE SO THAT SHARES, WHEN REDEEMED, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST. CURRENT PERFORMANCE MAY BE HIGHER OR LOWER THAN THE PERFORMANCE DATA QUOTED. PERFORMANCE DATA CURRENT TO THE MOST RECENT MONTH END IS AVAILABLE BY CALLING 1-800-514-3583. THE FUND INVESTS PRIMARILY IN DIVIDEND PAYING COMPANIES AND IT IS POSSIBLE THESE COMPANIES MAY ELIMINATE OR REDUCE THEIR DIVIDEND PAYMENTS. INDEX INFORMATION (I) IS INCLUDED MERELY TO SHOW THE GENERAL TREND IN THE EQUITY MARKETS FOR THE PERIOD INDICATED AND IS NOT INTENDED TO IMPLY THAT THE FUND'S PORTFOLIO WILL BE SIMILAR TO THE INDICES EITHER IN COMPOSITION OR RISK AND (II) HAS BEEN OBTAINED FROM SOURCES BELIEVED TO BE ACCURATE.

^(a) Represents the period from the commencement of operations (September 18, 2014) through August 31, 2015.

^(b) Amount rounds to less than \$0.01 per share.

^(c) Total return is a measure of the change in value of an investment in the Fund over the periods covered, which assumes any dividends and capital gain distributions are reinvested in shares of the Fund. The returns shown do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of Fund shares. The total returns would be lower if the Adviser had not reduced advisory fees (Note 4).

^(d) Not annualized.

^(e) Annualized.

^(f) Ratio was determined after advisory fee reductions by the Adviser (Note 4).

See accompanying notes to financial statements.

BLUE CURRENT GLOBAL DIVIDEND FUND

NOTES TO FINANCIAL STATEMENTS

February 29, 2020 (Unaudited)

1. Organization

Blue Current Global Dividend Fund (the “Fund”) is a diversified series of Ultimus Managers Trust (the “Trust”), an open-end investment company established as an Ohio business trust under a Declaration of Trust dated February 28, 2012. Other series of the Trust are not incorporated in this report.

The investment objective of the Fund is to seek current income and capital appreciation.

The Fund currently offers one class of shares: Institutional Class shares (sold without any sales loads or distribution fees and subject to a \$100,000 initial investment requirement). As of February 29, 2020, the Investor Class shares (to be sold without any sales loads, but subject to a distribution fee of up to 0.25% of Investor Class’ average daily net assets and subject to a \$2,500 initial investment requirement) are not currently offered. When both classes are offered, each share class will represent an ownership interest in the same investment portfolio.

2. Significant Accounting Policies

The following is a summary of the Fund’s significant accounting policies. The policies are in conformity with accounting principles generally accepted in the United States (“GAAP”). The Fund follows accounting and reporting guidance under Financial Accounting Standards Board Accounting Standards Codification Topic 946, “Financial Services – Investment Companies.”

Securities valuation – The Fund values its portfolio securities at market value as of the close of regular trading on the New York Stock Exchange (the “NYSE”) (normally 4:00 p.m. Eastern Time) on each day the NYSE is open for business. The Fund generally values its listed securities on the basis of the security’s last sale price on the security’s primary exchange, if available, otherwise at the exchange’s most recently quoted mean price. NASDAQ-listed securities are valued at the NASDAQ Official Closing Price. When using a quoted price and when the market is considered active, the security will be classified as Level 1 within the fair value hierarchy (see below). In the event that market quotations are not readily available or are considered unreliable due to market or other events, the Fund values its securities and other assets at fair value in accordance with procedures established by and under the general supervision of the Board of Trustees (the “Board”) of the Trust. Under these procedures, the securities will be classified as Level 2 or 3 within the fair value hierarchy, depending on the inputs used. Unavailable or unreliable market quotes may be due to the following factors: a substantial bid-ask spread; infrequent sales resulting in stale prices; insufficient trading volume; small trade sizes; a temporary lapse in any reliable pricing source; and actions of the securities or futures markets, such as the suspension or limitation of trading. As a result, the prices of securities used to calculate the Fund’s net asset value (“NAV”) may differ from quoted or published prices for the

BLUE CURRENT GLOBAL DIVIDEND FUND

NOTES TO FINANCIAL STATEMENTS (Continued)

same securities. Securities traded on foreign exchanges are typically fair valued by an independent pricing service and translated from the local currency into U.S. dollars using currency exchange rates supplied by an independent pricing service.

GAAP establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – other significant observable inputs
- Level 3 – significant unobservable inputs

The inputs or methods used for valuing securities are not necessarily an indication of the risks associated with investing in those securities. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement.

The Fund's foreign equity securities actively traded in foreign markets may be classified as Level 2 despite the availability of closing prices because such securities are typically fair valued by an independent pricing service. The Board has authorized the Fund to retain an independent pricing service to determine the fair value of its foreign securities because the value of such securities may be materially affected by events occurring before the Fund's pricing time but after the close of the primary markets or exchanges on which such foreign securities are traded. These intervening events might be country-specific (e.g., natural disaster, economic or political developments, interest rate change); issuer specific (e.g., earnings report or merger announcement); or U.S. market-specific (such as a significant movement in the U.S. market that is deemed to affect the value of foreign securities). The pricing service uses an automated system that incorporates a model based on multiple parameters, including a security's local closing price, relevant general and sector indices, currency fluctuations, trading in depositary receipts and futures, if applicable, and/or research valuations by its staff, in determining what it believes is the fair value of the securities.

The following is a summary of the inputs used to value the Fund's investments as of February 29, 2020:

Investments in Securities	Level 1	Level 2	Level 3	Total
Common Stocks	\$ 48,527,094	\$ 9,687,923	\$ —	\$ 58,215,017
Money Market Funds	534,775	—	—	534,775
Total	<u>\$ 49,061,869</u>	<u>\$ 9,687,923</u>	<u>\$ —</u>	<u>\$ 58,749,792</u>

BLUE CURRENT GLOBAL DIVIDEND FUND

NOTES TO FINANCIAL STATEMENTS (Continued)

Refer to the Fund's Schedule of Investments for a listing of the common stocks by sector and industry type. The Fund did not have any assets or liabilities that were measured at fair value on a recurring basis using significant unobservable inputs (Level 3) as of or during the six months ended February 29, 2020.

Foreign currency translation – Securities and other assets and liabilities denominated in or expected to settle in foreign currencies are translated into U.S. dollars based on exchange rates on the following basis:

- A. The fair values of investment securities and other assets and liabilities are translated as of the close of the NYSE each day.
- B. Purchases and sales of investment securities and income and expenses are translated at the rate of exchange prevailing as of 4:00 p.m. Eastern Time on the respective date of such transactions.
- C. The Fund does not isolate that portion of the results of operations caused by changes in foreign exchange rates on investments from those caused by changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses on investments.

Reported net realized foreign exchange gains or losses arise from 1) purchases and sales of foreign currencies, 2) currency gains or losses realized between the trade and settlement dates on securities transactions and 3) the difference between the amounts of dividends and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Reported net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities that result from changes in exchange rates.

Forward foreign currency contracts – The Fund, at times, uses forward foreign currency contracts to offset the exposure to foreign currency. All foreign currency contracts are "marked-to-market" daily at the applicable translation rates, resulting in unrealized gains or losses. Realized and unrealized gains or losses from transactions in foreign currency contracts, if any, will be included on the Fund's Statement of Operations. Risks associated with these contracts include the potential inability of counterparties to meet the terms of their contracts and unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

Share valuation – The NAV per share of each class of the Fund is calculated daily by dividing the total value of the assets attributable to that class, less liabilities attributable to that class, by the number of shares outstanding of that class. The offering price and redemption price per share of each class of the Fund is equal to the NAV per share of such class, except that shareholders of the Fund are subject to a redemption fee equal to 2.00% of the value of Fund shares redeemed within 7 days of purchase, excluding involuntary redemptions of accounts that fall below the minimum investment amount or the

BLUE CURRENT GLOBAL DIVIDEND FUND

NOTES TO FINANCIAL STATEMENTS (Continued)

redemption of Fund shares representing reinvested dividends, capital gain distributions, or capital appreciation. During the periods ended February 29, 2020 and August 31, 2019, proceeds from redemption fees, recorded in capital, totaled \$0 and \$2,135, respectively.

Investment income – Dividend income is recorded on the ex-dividend date. Non-cash dividends included in dividend income, if any, are recorded at the fair market value of the security received. Interest income is accrued as earned. The Fund may invest in real estate investment trusts (“REITs”) that pay distributions to their shareholders based on available funds from operations. It is common for these distributions to exceed the REIT’s taxable earnings and profits resulting in the excess portion of such distribution to be designated as return of capital. Distributions received from REITs are generally recorded as dividend income and, if necessary, are reclassified annually in accordance with tax information provided by the underlying REITs. The Fund may also invest in master limited partnerships (“MLPs”) whose distributions generally are comprised of ordinary income, capital gains and return of capital from the MLP. For financial statement purposes, the Fund records all income received as ordinary income. This amount may be subsequently revised based on information received from the MLPs after their tax reporting periods are concluded, as the actual character of these distributions is not known until after the fiscal year end of the Fund. Withholding taxes on foreign dividends have been recorded for in accordance with the Fund’s understanding of the applicable country’s tax rules and rates.

Investment transactions – Investment transactions are accounted for on the trade date. Realized gains and losses on investments sold are determined on a specific identification basis.

Common expenses – Common expenses of the Trust are allocated among the Fund and the other series of the Trust based on the relative net assets of each series, the number of series in the Trust, or the nature of the services performed and the relative applicability to each series.

Distributions to shareholders – Distributions to shareholders arising from net investment income are declared and paid quarterly to shareholders. Net realized capital gains, if any, are distributed at least annually. The amount of distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from GAAP. Dividends and distributions to shareholders are recorded on the ex-dividend date. The tax character of distributions paid during the periods ended February 29, 2020 and August 31, 2019 was as follows:

Periods Ended	Ordinary Income	Long-Term Capital Gains	Total Distributions
02/29/20	\$ 610,050	\$ 305,062	\$ 915,112
08/31/19	\$ 964,319	\$ —	\$ 964,319

BLUE CURRENT GLOBAL DIVIDEND FUND

NOTES TO FINANCIAL STATEMENTS (Continued)

On March 31, 2020, the Fund paid an ordinary income dividend of \$0.0228 per share to shareholders of record on March 30, 2020.

Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, each as of the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Federal income tax – The Fund has qualified and intends to continue to qualify as a regulated investment company under the Internal Revenue Code of 1986, as amended (the “Code”). Qualification generally will relieve the Fund of liability for federal income taxes to the extent 100% of its net investment income and net realized capital gains are distributed in accordance with the Code.

In order to avoid imposition of the excise tax applicable to regulated investment companies, it is also the Fund’s intention to declare as dividends in each calendar year at least 98% of its net investment income (earned during the calendar year) and 98.2% of its net realized capital gains (earned during the 12 months ended October 31) plus undistributed amounts from prior years.

The following information is computed on a tax basis for each item as of February 29, 2020:

Tax cost of portfolio investments	<u>\$ 54,449,103</u>
Gross unrealized appreciation	\$ 7,872,490
Gross unrealized depreciation	<u>(3,571,801)</u>
Net unrealized appreciation on investments	4,300,689
Accumulated ordinary income	144,780
Other net gains	<u>176,660</u>
Accumulated earnings	<u>\$ 4,622,129</u>

The difference between the federal income tax cost of portfolio investments and the financial statement cost is due to certain timing differences in the recognition of capital gains or losses under income tax regulations and GAAP. These “book/tax” differences are temporary in nature and are primarily due to the tax deferral of losses on wash sales and the tax treatment of the cost of securities received as in-kind subscriptions at the inception of the Fund.

The Fund recognizes the tax benefits or expenses of uncertain tax positions only when the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has reviewed the Fund’s tax positions for the current and all open tax years (generally, three years) and has concluded that no provision for unrecognized tax benefits or expenses is required in these financial statements. The Fund identifies its major tax jurisdiction as U.S. federal.

BLUE CURRENT GLOBAL DIVIDEND FUND

NOTES TO FINANCIAL STATEMENTS (Continued)

3. Investment Transactions

During the six months ended February 29, 2020, cost of purchases and proceeds from sales of investment securities, other than short-term investments, were \$17,920,094 and \$15,146,149, respectively.

4. Transactions with Related Parties

INVESTMENT ADVISORY AGREEMENT

The Fund's investments are managed by Edge Capital Group, LLC (the "Adviser") pursuant to the terms of an Investment Advisory Agreement. Under the Investment Advisory Agreement, the Fund pays the Adviser an investment advisory fee, computed and accrued daily and paid monthly, at the annual rate of 0.99% of its average daily net assets.

Pursuant to an Expense Limitation Agreement between the Fund and the Adviser (the "ELA"), the Adviser had agreed, until April 30, 2021, to reduce its investment advisory fees and reimburse other expenses to limit total annual operating expenses (exclusive of brokerage costs; taxes; interest; borrowing costs such as interest and dividends expenses on securities sold short; costs to organize the Fund; acquired fund fees and expenses; and extraordinary expenses such as litigation and merger or reorganization costs and other expenses not incurred in the ordinary course of the Fund's business) to an amount not exceeding 1.24% of the average daily net assets of the Investor Class shares and 0.99% of the average daily net assets of the Institutional Class shares. Accordingly, under the ELA, the Adviser reduced its investment advisory fees in the amount of \$137,453 during the six months ended February 29, 2020.

Under the terms of the ELA, investment advisory fee reductions and expense reimbursements by the Adviser are subject to repayment by the Fund for a period of three years after such fees and expenses were incurred, provided that the repayments do not cause the Fund's total annual operating expenses to exceed the lesser of (i) the expense limitation then in effect, if any, and (ii) the expense limitation in effect at the time the expenses to be repaid were incurred. As of February 29, 2020, the Adviser may seek recoupment of investment advisory fee reductions in the amount of \$776,939 no later than the dates stated below:

August 31, 2020	\$	112,635
August 31, 2021		257,004
August 31, 2022		269,847
February 28, 2023		137,453
Total	\$	<u>776,939</u>

BLUE CURRENT GLOBAL DIVIDEND FUND

NOTES TO FINANCIAL STATEMENTS (Continued)

OTHER SERVICE PROVIDERS

Ultimus Fund Solutions, LLC (“Ultimus”) provides administration, fund accounting, compliance and transfer agency services to the Fund. The Fund pays Ultimus fees in accordance with the agreements for such services. In addition, the Fund pays out-of-pocket expenses including, but not limited to, postage, supplies, and certain costs related to the pricing of the Fund’s portfolio securities.

Under the terms of a Distribution Agreement with the Trust, Ultimus Fund Distributors, LLC (the “Distributor”) serves as principal underwriter to the Fund. The Distributor is a wholly-owned subsidiary of Ultimus. The Distributor is compensated by the Adviser (not the Fund) for acting as principal underwriter.

Certain officers and a Trustee of the Trust are also officers of Ultimus and the Distributor and are not paid by the Fund for serving in such capacities.

TRUSTEE COMPENSATION

Each Trustee who is not an “interested person” of the Trust (“Independent Trustee”) receives a \$1,300 annual retainer from the Fund, paid quarterly, except for the Board Chairperson who receives a \$1,500 annual retainer from the Fund, paid quarterly. Each Independent Trustee also receives from the Fund a fee of \$500 for each Board meeting attended plus reimbursement for travel and other meeting-related expenses.

PRINCIPAL HOLDER OF FUND SHARES

As of February 29, 2020, the following shareholder owned of record 25% or more of the outstanding shares of the Fund:

Name of Record Owner	% Ownership
Pershing, LLC (for the benefit of multiple shareholders)	76%

A beneficial owner of 25% or more of the Fund’s outstanding shares may be considered a controlling person. That shareholder’s vote could have a more significant effect on matters presented at a shareholders’ meeting.

5. Derivative Transactions

There were no derivative instruments held by the Fund as of or during the six months ended February 29, 2020.

BLUE CURRENT GLOBAL DIVIDEND FUND

NOTES TO FINANCIAL STATEMENTS (Continued)

6. Foreign Investment Risk

Compared with investing in the U.S., investing in foreign markets involves a greater degree and variety of risk. Investors in foreign markets may face delayed settlements, currency controls, and adverse economic developments as well as higher overall transaction costs. In addition, fluctuations in the U.S. dollar's value versus other currencies may erode or reverse gains or increase losses from investments denominated in foreign currencies. Foreign governments may expropriate assets, impose capital or currency controls, impose punitive taxes, impose limits on ownership or nationalize a company or industry. Any of these actions could have a severe effect on security prices and impair an investor's ability to bring its capital or income back to the U.S. The value of foreign securities may be affected by incomplete, less frequent, or inaccurate financial information about their issuers, social upheavals, or political actions ranging from tax code changes to government collapse. Foreign companies may also receive less coverage by market analysts than U.S. companies and may be subject to different reporting standards or regulatory requirements than those applicable to U.S. companies.

7. Contingencies and Commitments

The Fund indemnifies the Trust's officers and Trustees for certain liabilities that might arise from their performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations, warranties, and general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

8. Subsequent Events

The Fund is required to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed as of the date of the Statement of Assets and Liabilities. For non-recognized subsequent events that must be disclosed to keep the financial statements from being misleading, the Fund is required to disclose the nature of the event as well as an estimate of its financial effect, or a statement that such an estimate cannot be made. Management has evaluated subsequent events through the issuance of these financial statements and has noted no such events other than the ordinary income dividend paid on March 31, 2020, as discussed in Note 2.

BLUE CURRENT GLOBAL DIVIDEND FUND

ABOUT YOUR FUND'S EXPENSES (Unaudited)

We believe it is important for you to understand the impact of costs on your investment. As a shareholder of the Fund, you incur ongoing costs, including management fees and other operating expenses. The following examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

A mutual fund's ongoing costs are expressed as a percentage of its average net assets. This figure is known as the expense ratio. The expenses in the table below are based on an investment of \$1,000 made at the beginning of the most recent period (September 1, 2019) and held until the end of the period (February 29, 2020).

The table below illustrates the Fund's ongoing costs in two ways:

Actual fund return – This section helps you to estimate the actual expenses that you paid over the period. The “Ending Account Value” shown is derived from the Fund's actual return, and the fourth column shows the dollar amount of operating expenses that would have been paid by an investor who started with \$1,000 in the Fund. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period.

To do so, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number given for the Fund under the heading “Expenses Paid During Period.”

Hypothetical 5% return – This section is intended to help you compare the Fund's ongoing costs with those of other mutual funds. It assumes that the Fund had an annual return of 5% before expenses during the period shown, but that the expense ratio is unchanged. In this case, because the return used is not the Fund's actual return, the results do not apply to your investment. The example is useful in making comparisons because the U.S. Securities and Exchange Commission (the “SEC”) requires all mutual funds to calculate expenses based on a 5% return. You can assess the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Note that expenses shown in the table are meant to highlight and help you compare ongoing costs only. The Fund does not charge sales loads. However, a redemption fee of 2% is applied on the sale of shares held for less than 7 days.

The calculations assume no shares were bought or sold during the period. Your actual costs may have been higher or lower, depending on the amount of your investment and the timing of any purchases or redemptions.

More information about the Fund's expenses can be found in this report. For additional information on operating expenses and other shareholder costs, please refer to the Fund's prospectus.

BLUE CURRENT GLOBAL DIVIDEND FUND ABOUT YOUR FUND'S EXPENSES (Unaudited) (Continued)

Institutional Class	Beginning Account Value September 1, 2019	Ending Account Value February 29, 2020	Net Expense Ratio^(a)	Expenses Paid During Period^(b)
Based on Actual Fund Return	\$ 1,000.00	\$ 948.40	0.99%	\$4.80
Based on Hypothetical 5% Return (before expenses)	\$ 1,000.00	\$ 1,019.94	0.99%	\$4.97

^(a) Annualized, based on the Fund's most recent one-half year expenses.

^(b) Expenses are equal to the Fund's annualized net expense ratio multiplied by the average account value over the period, multiplied by 182/366 (to reflect the one-half year period).

BLUE CURRENT GLOBAL DIVIDEND FUND

OTHER INFORMATION (Unaudited)

A description of the policies and procedures that the Fund uses to vote proxies relating to portfolio securities is available without charge upon request by calling 1-800-514-3583, or on the SEC's website at www.sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is also available without charge upon request by calling 1-800-514-3583, or on the SEC's website at www.sec.gov.

The Trust files a complete listing of portfolio holdings for the Fund with the SEC as of the end of the first and third quarters of each fiscal year on Form N-Q or as an exhibit to its reports on Form N-Q's successor form, Form N-PORT. These filings are available upon request by calling 1-800-514-3583. Furthermore, you may obtain a copy of the filings on the SEC's website at www.sec.gov.

CUSTOMER PRIVACY NOTICE

FACTS

WHAT DOES THE BLUE CURRENT GLOBAL DIVIDEND FUND (the "Fund") DO WITH YOUR PERSONAL INFORMATION?

Why?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share depend on the product or service you have with us. This information can include:

- Social Security number
- Assets
- Retirement Assets
- Transaction History
- Checking Account Information
- Purchase History
- Account Balances
- Account Transactions
- Wire Transfer Instructions

When you are *no longer* our customer, we continue to share your information as described in this notice.

How?

All financial companies need to share your personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons the Fund chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does the Fund share?	Can you limit this sharing?
For our everyday business purposes – Such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes – to offer our products and services to you	No	We don't share
For joint marketing with other financial companies	No	We don't share
For our affiliates' everyday business purposes – information about your transactions and experiences	No	We don't share
For our affiliates' everyday business purposes – information about your creditworthiness	No	We don't share
For nonaffiliates to market to you	No	We don't share
